CANINE LIFE®

FOR THE LOVE OF YOUR DOG

'OUR DOGS MAY NOT BE OUR WHOLE LIFE, BUT THEY MAKE OUR LIVES WHOLE'

- 5 cups **CANINE LIFE**, Pre-Mix
- 1 lb. ground chicken or white fish (Pollock, cod or any white bottom fish, fresh or frozen)
- 1 medium/large sized red apple, washed, cored, pureed*
- 1/2 cup safflower oil
- 1 cup pureed* vegetable mix (a blend of any two or three of the following: green beans, carrots, zucchini, parsley, celery, squash, turnip)
- 1 egg
- 1 cup filtered water (more or less may be needed depending on the water content in the ground meat)
- ½ cup PURE cranberry juice (not cranberry cocktail!)

*Pureed means chopped very fine, i.e. food processor, cuisinart, blender, meat grinder, food grater. All veggies & meat go into the mix raw.

1 lb. of meat or white fish equals approximately 12% protein

INSTRUCTIONS:

- Preheat oven to 350F (180C) degrees.
- Lightly grease a 9 x 12 baking pan, or muffin tins. One batch makes 18 squares or 18 regular sized muffins.
- Combine all ingredients in a large bowl, and mix **well**.
- Place mixture into 9 x 12 baking pan or muffin tins.
- Baking Pan: 50 – 60 minutes.
- Muffin Tins: 25 - 30 minutes.
- Remove from oven and cool to room temperature, before storing in an air tight container or ziplock bags. Refrigerate 2 to 3 days worth of food, and freeze the rest.

***Helpful Tip: Fill empty muffin shells (that you did not fill with mix) 3/4 full with water, to protect them from scorching in the oven.

- The addition of an Omega 3 Fatty Acid is essential to your dog's health. Canine Life recommended the additional of North Atlantic Salmon Oil in the following amounts:
 - 500 – 1000mg of Salmon Oil daily (small/med breeds) - 1500-2000 (large breeds)
 - *200 IU of Vitamin E is also suggested to be given three times per week
 - *Vitamin C (Time Released Ascorbic form) 2 X 500mg daily
 - Cran-Max capsule from Swiss - one a day
 - Jamison or Swiss Vitamin B Complex – one a day
 - Any prescription medications your dog is currently taking.
- (Note *dogs under 40 lbs should be given half the above amount of Vitamin E and Vitamin C)

*When following the Canine Life Kidney Diet it is strongly recommended that you **not** feed your dog any kibble, canned food, or commercial biscuits.*
